

# U.S. OFFICE OF PERSONNEL MANAGEMENT

## Information Technology Specialist (Applications Software) In Macon, GA

This is a full-time position at the Office of Personnel Management in the Office of the Chief Information Officer, Federal IT Business Solutions.

The Office of Personnel Management is charged with recruiting, retaining and honoring a world-class workforce to serve the American people. In support of this mission, the Office of Federal IT Business Solutions is responsible for the management, design, development, and maintenance of applications and systems supporting human resource management.

Employees will serve as a member of an applications development team and assist senior IT Specialist in the design, testing, implementation, operation, management, and maintenance of human resource management systems. The following duties will be performed:

- Design, develop, implement, and maintain new application software and solutions using Agile development methodology.
- Test and evaluate system hardware, software, and operations to ensure compliance with the Federal Information Security Management Act (FISMA).
- Collaborate with team members on software troubleshooting.
- Analyze, test, and evaluate IT software applications.
- Provide customer support services to IT users.

### Requirements:

- Knowledge of and experience developing system software applications using ASP.NET, ASP.NET MVC, VB.NET, Entity Framework, JavaScript, SQL, and HTML/CSS using the Agile methodology
- Skill in oral and written communication
- US citizenship
- Males 18-25 years old must certify registration with the Selective Service

### Salary Range:

GS-12: \$70,192.00 - \$91,255.00 annually

### To Apply:
