

U.S. OFFICE OF PERSONNEL MANAGEMENT

Information Technology Specialist (Systems Analysis) In Macon, GA

This is a full-time position at the Office of Personnel Management in the Office of the Chief Information Officer, Federal IT Business Solutions.

The Office of Personnel Management is charged with recruiting, retaining and honoring a world-class workforce to serve the American people. In support of this mission, the Office of Federal IT Business Solutions is responsible for the management, design, development, and maintenance of applications and systems supporting human resource management.

Employees will provide analysis and quality assurance oversight necessary to evaluate applications for state-of-the-art technology and functionality. The following duties will be performed:

- Provide quality assurance oversight to ensure the integrity of systems development to user requirements.
- Conduct independent testing of major software applications.
- Implement change control and configuration management procedures.
- Conduct independent analyses of systems to ensure adherence of software products to the applicable standards, procedures, and requirements.
- Test and evaluate system hardware, software, and operations to ensure compliance with the Federal Information Security Management Act (FISMA).

Requirements:

- Knowledge of and experience with software analysis, design, development, testing, and implementation for major software applications or systems
- Skill in oral and written communication
- US citizenship
- Males 18-25 years old must certify registration with the Selective Service

Salary Range:

GS-12: \$70,192.00 - \$91,255.00 annually
